

Task 1: Java interview-question PDFs on GeeksforGeeks

Query 1

- `site:geeksforgeeks.org filetype:pdf "Java interview questions"`

Query 2

- `site:geeksforgeeks.org "Java interview questions" filetype:pdf`

Query 3

- `site:geeksforgeeks.org filetype:pdf Java "interview questions" "OOP"`

Task 2: Instagram bug-bounty reports on HackerOne

The basic query from the hint is:

- `site:hackerone.com inurl:instagram`

To focus on 2023:

- `site:hackerone.com inurl:instagram after:2023-01-01 before:2024-01-01`

You can further refine it with:

- `site:hackerone.com inurl:instagram "Instagram" after:2023-01-01 before:2024-01-01`

Task 3: Flipkart coupon pages

A suitable query is:

- `site:flipkart.com inurl:coupon -expired`

A more specific variation:

- `site:flipkart.com inurl:coupon "coupon" -expired`

Task 4: Public Google Drive folders containing IPL material

Two Queries That Return Actual Folders:

- `site:drive.google.com "IPL" intitle:highlights`
- `site:drive.google.com "IPL" "highlights" filetype:mp4`

Task 5: Searching for leaked fintech email addresses

Three safe queries

Query 1

- `site:paytm.com ("contact" OR "support" OR "security") "@paytm.com"`

Query 2

- site:phonepe.com ("contact" OR "security" OR "support")
"@phonepe.com"

Query 3

- site:paytm.com filetype:pdf "@paytm.com" "security"
